

PALLAVAN UPV JHALAWAR

The Principal of our school, Ms. Punam Shringi attended a workshop on **Digital Teaching Learning** under the banner of **Kota Sahodaya School Complex** in collaboration with **Extramarks Learning App**. The workshop was organized at Hotel Ummed Bhawan Palace, Kota with an objective to understand that how teachers can play a vital role in the development of the students through digital learning process. It was an interactive programme in which the participants put forth a lot of queries like:

- Is digital teaching sufficient for the students?
- Why there is difference in teaching in rural and urban schools and also than in a Private and a Government School?
- There has to be some psychologically and technically proved method of training for the teachers using The Digital Teaching/Learning System.
- How can such a system survive in area with poor internet connectivity?

It was a great learning experience and the Trainers addressed the queries very satisfactorily with justified answers. The programme was wrapped up with a vote of thanks from Mr. Pradeep Gaur, the president of Kota Sahodaya Complex who also supported the digital learning technology.
